

PROPERTY TAX APPEAL BOARD'S DECISION

APPELLANT: Anthony Tiverios
DOCKET NO.: 04-23558.001-R-1
PARCEL NO.: 04-33-309-026-0000

The parties of record before the Property Tax Appeal Board are Anthony Tiverios, the appellant, by attorney Rusty A. Payton of the Law Offices of Rusty A. Payton, P.C., Chicago, Illinois; and the Cook County Board of Review.

The subject property is a 62-year old, two-story frame dwelling containing 2,839 square feet of living area with a crawl-space foundation and a fireplace.

The appellant submitted evidence before the Property Tax Appeal Board claiming unequal treatment in the assessment process as the basis of the appeal. In support of the equity argument, the appellant submitted a grid analysis detailing four suggested comparable properties. On the appellant's map, the comparables are located approximately in close proximity of the subject. The comparables are two-story frame dwellings that are one to 62 years old. Two comparables have partial basements; one has an unfinished basement; and one does not have a basement. Three comparables have central air conditioning, and two have fireplaces. Photographs supplied by the appellant indicate that at least three comparables have a garage. The dwellings have living areas that contain 2,114 to 3,142 square feet, and their improvement assessments range from \$6.75 to \$11.70 per square foot. The subject property has an improvement assessment of \$14.75 per square foot. Based on this evidence, the appellant requested a reduction in the subject's improvement assessment.

The board of review submitted its "Board of Review Notes on Appeal" wherein the subject's assessment was disclosed. In support of the subject's assessment, the board of review offered property characteristic sheets and a spreadsheet detailing four suggested comparable properties that are located in close

Based on the facts and exhibits presented, the Property Tax Appeal Board hereby finds a reduction in the assessment of the property as established by the Cook County Board of Review is warranted. The correct assessed valuation of the property is:

LAND:	\$	9,273
IMPR.:	\$	30,499
TOTAL:	\$	39,772

proximity of the subject. The comparables are two-story frame dwellings that are 59 or 62 years old. One comparable has a full, unfinished basement; one has a partial, unfinished basement; and two do not have basements. Two comparables have a garage; two have central air conditioning; and two have one or two fireplaces. The dwellings have living areas that contain 2,400 to 3,456 square feet, and improvement assessments that range from \$15.00 to \$15.73 per square foot. Based on this evidence, the board of review requested confirmation of the subject's assessment.

After reviewing the record and considering the evidence, the Property Tax Appeal Board finds that it has jurisdiction over the parties and the subject matter of this appeal. The Property Tax Appeal Board further finds that a reduction in the subject's assessment is warranted. The appellant's argument was unequal treatment in the assessment process. The Illinois Supreme Court has held that taxpayers who object to an assessment on the basis of lack of uniformity bear the burden of proving the disparity of assessment valuations by clear and convincing evidence. Kankakee County Board of Review v. Property Tax Appeal Board, 131 Ill.2d 1 (1989). The evidence must demonstrate a consistent pattern of assessment inequities within the assessment jurisdiction. After an analysis of the assessment data, the Board finds the appellant has overcome this burden.

Both parties presented assessment data on a total of eight equity comparables. The appellant's comparables differed significantly in size from the subject; comparable one differed substantially from the subject in age; and comparables one, two, and four differed in foundation. The board of review's comparables two, three, and four differed substantially from the subject in size; and comparables one and two differed in foundation. As a result, none of the comparables was truly similar to the subject property in age, location, and physical characteristics to provide clear and convincing evidence that the property was inequitably assessed. However, the Board notes that all comparables had improvement assessments ranging from \$6.75 to \$15.73 per square foot. The subject's \$14.75 per square foot improvement assessment is within that range and appears to be supported after considering differences in physical and location attributes.

As a result of this analysis, the Property Tax Appeal Board finds the appellant has adequately demonstrated that the subject dwelling was inequitably assessed by clear and convincing evidence, and a reduction is warranted.

This is a final administrative decision of the Property Tax Appeal Board are subject to review in the Circuit Court or Appellate Court under the provisions of the Administrative Review Law (735 ILCS 5/3-101 et seq.) and section 16-195 of the Property Tax Code.
